AvePoint Cloud Insights 1 Service Pack 2

Released September 18, 2016

New Features and Improvements

- When a Service Administrator adds users, the Service Administrator can assign AvePoint Cloud Insights to tenant users and select the reports that are available to these users. Application Administrators can view statistics about all site collections in their SharePoint Online environment. Standard Users can only view statistics about the site collections for which they have either the primary administrator or site owner role.
- Added support for filtering statistics on reports by selecting a report scope.
- Added support for filtering service and test accounts out of reports, which will improve report accuracy and quality.
